

UNDERGRADUATE SUMMER BRAIN RESEARCH PROGRAM

2024
MAY 20 - JULY 26

Boys Town National Research Hospital

offers a collaborative undergraduate summer research program in the areas of cognitive neuroscience, data modeling, and human neuroimaging. Accepted applicants complete a 10-week rotation in an affiliated laboratory doing hands-on research.

How to Apply

Join our research teams by sending a resume (with GPA) and interest letter by **February 5th, 2024**. Interest letters should include the applicant's primary research interests and the names of three possible faculty mentors. Final decisions will be made by **February 29th, 2024**.

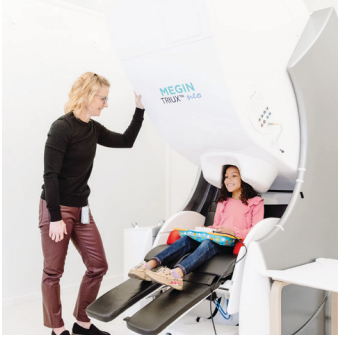

Learn more about our faculty mentors here:

instituteforhumanneuroscience.org/undergraduate-training

Send applications (resume with GPA and interest letter, maximum two pages, specifying mentors) and questions to:

Anson Lee

IHN.USBRP@boystown.org
